
the agent's move
A score for every move and for waiting
How well things are going, used in training
A summary of the agent's situation, with what nearby agents told it and how crowded it is
Neighbouring spots share what they know, a few rounds over
What the agent sees, its own part of the warehouse
one agent's network
the same network for every agent
Agent 1
Agent 2
· · ·
Agent m
the moves each agent picks
what it sees and its reward
Clashing moves are turned into waits
what it sees and its reward
the moves carried out
The warehouse moves one step
